

POLICY STATEMENT

MCO-Q-M-01.1
REV 01
25-10-2019

Our Policy is to offer the Maritime Industry: technical support through consultancy, class and statutory surveys that totally satisfies, all the needs of our customers following all the National and International Regulations regarding the Safety of Life at Sea.

For this, we rely on maintaining a Quality Management System that guarantees the continuous improvement of our jobs.

MCO aims to provide impartial and integral classification and statutory services to existing ships and offshore installations, for the promotion and safeguarding of the safety of life and property at sea and for the prevention of pollution to the marine environment, under its capacity as a Classification Society and a Recognized Organization (RO) / Recognized Security Organization (RSO).

MCO CLASSIFICATION SOCIETY, HEREBY STATES ITS full commitment:

1. To provide quality services for safety of life and property at sea, promoting the protection and preservation of the marine environment,
2. To exercise and deliver its services with due care, workmanship, independence and impartiality, confidentiality and specialization, in accordance with its established QMS, MCO Rules, IMO Conventions, National and International Standards and Codes while adopting best ship safety international practices,
3. For contributing towards the maritime safety and security of existing ships by means of offering to the Maritime Industry with independent, transparent, impartial and reliable technical services relevant to ship survey and certification services, for ships and offshore installation.
4. To maintain and operate under a certified and independently audited Quality Management System according to ISO 9001:2015 standards, which is continuously improved while quality of services is based on controlled
5. To adopt and implement a fact-based approach for measurement of performance and quality improvement while applying decision making upon verified facts wherever feasible,
6. For being alerted and constantly monitor ship safety legislative updates in the international maritime front affecting MCO services, to ensure early incorporation of latest trends and changes so as to ensure that MCO deliverables maintain continuing suitability.

Based upon the very same principals and ethics as enrooted by its founders, MCO experts and staff have shared values for uncompromising quality, sustainable growth and result orientation under the awareness that the success of our clients will favor ours.
